

Dear Ingestre Stables,

Thank you for all the new and wonderful experiences you have given me! I cherish every single moment I spent at Ingestre Stables and every experience has taught me something useful, especially the hacking!

I love all the horses and ponies at Ingestre Stables, but my favorites are Alfie and Snowie because I rode them the most. Alfie was hard for me at first, because he was a little bit slow, but he soon taught me to be sharper and after a while, Alfie was listening to me – and he's so sweet when he falls asleep!

Snowie is unique and I really love his eyes! He looks like a horse out of a fairytale. Snowie is great to ride because he listens to every signal I give him, and I never need to use the whip.

My instructors all taught me something important. It's mostly thanks to them that I improved so much during my stay. I really like Alex, because she helped me with my jumping, since I was just beginning. She fixed my position and started off with the basics, instead of just going straight to jumping. I also enjoyed our lesson with Euan because I was riding a particularly lazy horse. Euan taught me how to use the whip effectively instead of just using ineffective aids the whole lesson and not getting anything done! It's thanks to him that I learned to be tough and not to let the horse be the boss.

Ingestre Stables has inspired me to work even harder at horse riding, and has made me love horses like I could never have done, staying in Hong Kong. I hope next year I can come again and see Alfie and Snowie and all the others! Ingestre Stables is really a beautiful place.

Sincerely,
Carolynne Liu
